ABOUT ME

Computer Science graduate with strong interest in Cybersecurity, Threat Analysis, SOC Operations, and modern Web Development. Skilled in networking, vulnerability assessment, OSINT, and frontend engineering with React and modern CSS. Passionate about hands-on learning through practical labs, TryHackMe, and building real-world security tools and creative web applications. Actively sharing cybersecurity and development insights on LinkedIn.

EDUCATION

Bachelor of Science in Computer Science CGPI: 8.00 | 2023 – 2026
Mahendra Pratap Sharada Prasad Singh College of Science, Arts & Commerce
University of Mumbai, Mumbai, Maharashtra

TECHNICAL SKILLS

Cybersecurity	Networking, Nmap, Wireshark, Burp Suite, OWASP, SIEM (Basics), Splunk (Basics), Kali Linux, OSINT, Threat Intelligence
Programming & Web	HTML, CSS, JavaScript, TypeScript, Basic Python, React, APIs
Frameworks & Tools	Tailwind CSS, Vite, Git, GitHub, VS Code, Vercel, Netlify
Core Concepts	Phishing Detection, Vulnerability Assessment, Security Monitoring, Web Security, Incident Analysis, Responsive Design
Soft Skills	Problem Solving, Communication, Teamwork, Adaptability, Analytical Thinking

PROJECTS

Email & URL Threat Analyzer HTML, CSS, JavaScript

Live Demo: <https://email-threat-analyser.netlify.app/>

- Developed a cybersecurity-focused web application to analyze suspicious emails and URLs for phishing indicators and malicious activity.
- Implemented threat scoring and phishing detection logic using client-side analysis techniques.
- Built an interactive dashboard displaying scan results, risk indicators, and threat insights.
- Designed responsive dark/light mode UI for improved user experience and accessibility.
- Simulated real-world SOC investigation workflows for educational and portfolio purposes.

CyberFlow Security Dashboard Vite, TypeScript, Tailwind CSS, JavaScript

Live Demo: <https://security-suite-nine.vercel.app/>

- Built a modern cybersecurity dashboard inspired by Security Operations Center (SOC) monitoring environments.
- Developed responsive analytics panels for threat monitoring, alerts, and security visualization.
- Used Tailwind CSS and TypeScript to create scalable and clean frontend architecture.
- Implemented modern UI/UX design with real-time styled dashboard interactions.
- Structured the project using modular frontend development practices with Vite build tooling.

Faiztheticss — Photography Portfolio HTML, CSS, JavaScript

Live Demo: <https://faiztheticss.vercel.app/>

- Designed and built an artistic photography gallery organized by color collections (Amber, Rose, Azure, Noir, Prism).
- Implemented immersive scroll-based storytelling with cinematic layouts and responsive masonry grids.
- Created smooth scroll-driven animations and reveal effects for an engaging user experience.
- Built fully responsive design that adapts seamlessly across desktop, tablet, and mobile devices.

CERTIFICATIONS

- Cisco Networking Academy Ethical Hacker
- TryHackMe Pre Security
- TryHackMe Cybersecurity 101

EXTRACURRICULAR

National Service Scheme (NSS) — Volunteer

- Actively participated in community service and social awareness initiatives.
- Collaborated with teams to organize events and campaigns.
- Developed leadership, teamwork, and communication skills through volunteer work.

CONTINUOUS LEARNING

- Regularly practicing cybersecurity labs and learning paths on TryHackMe.
- Building modern web applications with React, Vite, and responsive frontend technologies.
- Actively posting cybersecurity and web development content and insights on LinkedIn.
- Exploring SOC operations, penetration testing methodologies, and threat detection workflows.
